SUPPLEMENT.

---

---

THE Comtesse Noyan declares in a letter which she favoured me with, that I have done great injustice to the character of the weasel, in saying that it is not to be tamed, since she had reared one who would lick her hand when she gave it food, and was as fond and familiar as a dog or squirrel. And N. G. de Mornas assures me that he trained one who would follow him about; and he says that they are to be tamed by frequent stroking them on their backs, and beating them when they offer to bite.

THE ERMINE.

---

---

THE weasel with a black tail is called the Ermine or Roselet (*fig. 71.*) the ermine when it is white, and the roselet when it is red or yellowish. Though not so numerous as the
