

INDEX.

A.

- ABBERLEY Hills, their composition, i. 145.
- Acid, carbonic, in calcareous strata, ii. 94. In warm springs, 218.
- Acosta, M., on waves, ii. 207.
- Acunha, Tristan d', ii. 196.
- Adam's Peak, ii. 193.
- Adriatic, new land on the, ii. 2. Accumulation of mud in, 8.
- Africa, volcanos of, ii. 196.
- Agriculture, ii. 288.
- Agassiz, M., his classification of fish, i. 88. 164. His studies of fish in tertiary strata, 254.
- Agnano Lago, ii. 185.
- Aix, freshwater deposits of, ii. 16. Insects of, 17.
- Aix-la-Chapelle, springs of, ii. 218.
- Albano, Mount, ii. 191.
- Aldstone Moor, "flats" in, ii. 131. Lead mines of, 141. Inclination of the vein in, 156.
- Aleutian Islands, volcanic, ii. 194.
- Alhama, freshwater beds of, ii. 17.
- Alps, strata of, i. 37.
- Altai Mountains, ii. 193.
- Alum Bay, Isle of Wight, i. 235. 239.
- Alumina, proportion of oxygen in, i. 24.
- Ambleside, mottled clayslate found near, i. 124.
- America, North, fossils collected from, i. 139. Limestone of the great lakes, 144. Cretaceous system developed in, 226.
- America, South, melted rock below, ii. 209.
- Ammonites, subgenera of, i. 84.
- Amorphous masses under all the strata, ii. 81.
- Andes, ii. 173. Their volcanic area, 195.
- Animals, organic remains of, i. 69.
- Anticlinal lines, directions of, ii. 254, *et seq.*
- Antrim, basaltic district of, ii. 93.
- Apennines, strata of, i. 37.
- Arachnida, not common as fossil insects, i. 85.
- Arago, M., on temperature, ii. 229. 238.
- Ararat, Mount, ii. 192.
- Arran, granite veins of, i. 109. Remarkable section of carboniferous system in, 156. Remarkable igneous rocks in, 173.
- Archipelago, Greek, ii. 187. Coral reefs of the, "dangerous," i. 308.
- Argillaceous beds, types of, i. 231.
- Arno Val d', mammalia found in, ii. 22.
- Articulated animals, i. 84.
- Atlantic, tertiaries bordering on, i. 246.
- Atmosphere, temperature of, ii. 226.
- Ascension, Isle of, ii. 196.
- Ashby-de-la-Zouch, coalfields of, i. 170.
- Ashes and stones, ejections of, ii. 200.
- Ashgill force, Aldstone Moor, i. 165.
- Asia, eastern border of, ii. 193.
- Atlas, Mount, basaltic, ii. 196.
- Australia, once volcanic, ii. 197. Survey of, 296.
- Auvergne, bones in, covered by volcanic scorïæ, i. 47.
- Avernus, Lake, ii. 185.
- Azores, rise of islands in, ii. 187. 202.

B.

- Baher, field of fire at, ii. 192.
- Bald, Mr., his observations on temperature, ii. 235.
- Baltic, sandy deposits between it and the Black Sea, i. 246. Change of level adjoining, 304.
- Basalt, proportion of oxygen in, i. 25. Amorphous, remarkable experiments on, ii. 47. Of Hasenberg, 68. Of Staffa, 68.
