History of Zoophytology, - - -	Page 3—29
Opinions of the Ancients, - - -	3—4
Imperato, - - -	4
Peyssonel and Reaumur, - - -	5—7
Jussieu, - - -	8
Peyssonel and Parsons, - - -	10—11
Baker, - - -	11—13
Ellis, - - -	13—17
Linnæus, - - -	17—20
Baster, - - -	20—23
Pallas and Ellis, - - -	24—27
Nature of Sponges, - - -	28—29 and 325
Zoophytes, definition of - - -	30—31
Polypes, what? - - -	32
Their distinction into two classes, - - -	33
The structure of Ascidian polypes, - - -	33—36
Hydraform polypes, - - -	36—38
Asteroid polypes, - - -	38—41
Helianthoid polypes, - - -	41
Circulation of the Sertulariadaë, - - -	41—43
Ascidian polypes, - - -	43—45
Food of Polypes, - - -	45—46
Generation of polypes, and their ova, - - -	46—48
Evolution of the ova, - - -	48—49
The ova of the Flustræ, - - -	50—51
Polypidoms, Chemical composition of, - - -	52—53 and 76—77
Their forms, - - -	53—54
Their formation, - - -	55
Zoophytes, classification of, by Ellis, - - -	55
Linnæus, - - -	56
Pallas, - - -	57
Muller, - - -	58
Blumenbach, - - -	59
Cuvier, - - -	59—61
Lamouroux, - - -	62—64
Lamarck, - - -	65—66
