

INDEX.

[Figures in heavy-faced type indicate the page on which the description is given or important mention is made.]

A.

- Acrothele**, 52, 107.
 common to Lower and Middle Cambrian, 62.
 Species of, in Cambrian, 60.
Bohemica, 107.
Bohemica=*Obolus*? *Bohemicus*, 107.
coriacea, 107, 108.
 ?*dichotoma*, 107.
granulata, 107, 108, 109.
Matthewi, 107, 108, 109.
subsidua, 35, 40, 46, 99, 107, 108, 109.
subsidua, Explanation of figures of, on plate ix, 258.
- Acrotreta**, 52, 98, 100.
 common to Lower, Middle, and Upper Cambrian, 62.
 Species of, in Cambrian, 60.
attenuata, 98.
gemma, 32, 33, 35, 46, 49, 50, 98.
gemma, Explanation of figures of, on plate viii, 254.
pyxidicula, 98.
subconica, 98, 99.
 ?*subsidua*, 108.
- Adirondack region**, Potsdam fauna of the, 23.
 section correlated, 44.
- Adirondacks**, Submergence of the, 24.
- Aglaspis**, 54.
 in Upper Cambrian, not in Middle or Lower Cambrian, 62.
 Species of, in Cambrian, 61.
- Agnostidæ**, 55.
- Agnostus**, 19, 48, 149.
 common to Lower, Middle, and Upper Cambrian, 62.
 sp.?, 26, 47.
 Species of, in Cambrian, 61.
Acadicus, 55.
bidens, 32, 33, 150.
communis, 32, 33, 150.
integer, 150.
interstrictus, 40, 47, 55, 149, 150.
interstrictus? 32.
interstrictus, Explanation of figures of, on plate xvi, 286.
Josepha, 55.
lævigatus, 104.
lobatus, 151, 153, 156.
Neon., 32, 33.
nobilis, 27, 47, 55, 150.
nobilis, Copy of original figure of, on plate xvi, 286.
Orion, 17.
- Agnostus—Continued.**
parilis, 55, 151.
pisiformis, 55, 150.
prolongus, 33.
Richmondensis, 32.
seclusus, 32.
tumidosus, 33, 150.
tumifrons, 33.
- Agraulos**, common to Lower and Upper Cambrian, 62.
 Species of, in Cambrian, 61.
- Algæ**, 72.
 Distribution of species of, in Middle Cambrian, 45.
 Genera and species of, 48.
 Genera and species of, in Cambrian, 62.
 Genera of, in Cambrian, 59.
- Amphion**, 185.
 ? sp.?, 19.
 doubtfully identified in Cambrian, 63.
 ? Species of, in Cambrian, 61.
 ? in Upper Cambrian, not in Middle or Lower Cambrian, 62.
- Angelina**, 212.
Hitchcocki, 211.
Sedgwicki, 212.
- Annelid trails** in Middle Cambrian, 72.
- Annelida**, Distribution of species of, in Middle Cambrian, 46.
 Genera and species of, 48.
 Genera and species of, in Cambrian fauna, 62.
 Genera of, in Cambrian, 59.
- Anomocare**, 56, 209.
 limited to Middle Cambrian, 63.
 Species of, in Cambrian, 61.
parvum, 32, 48.
 ? *parvum*, 107, 209.
 ? *parvum*, Explanation of figure of, on plate xxv, 322.
- Anopolenus**, 165, 191.
 limited to Lower Cambrian, 62.
 Species of, in Cambrian, 61.
Salteri, 165.
- Anthromorpha**, 80.
- Apus canceriformis**, 148.
glacialis, 148.
punctatus, 204.
- Archæocyathellus**, 75, 76, 87, 88.
Rensselaericus, 84, 88.
 ? *Rensselaericus*, 85.
- Archæocyathinæ**, 51, 80.
- Archæocyathus**, 36, 72, 75, 83, 87.
 common to Lower and Middle Cambrian, 62.
