

I

- Ice—
 First meeting with, I, 106.
 Hummock, highest climbed, II, 218.
 Impracticability for sledge expedition, Nansen's consideration on possibility of, I, 584.
 Lanes in, I, 455; II, 183, 212, 215, 220, 230.
 Organisms contained in, I, 290, 502, 503, 514, 515.
 Rate of formation, I, 304, 398, 457.
 Roughness of surface during late spring weather, I, 449.
 Rubble-ice, II, 168.
 Sea-ice only encountered, except under land, II, 184 (Note).
 Shore-ice, II, 242.
 Siberia, ice-drift from, II, 140, 190, 708.
 Stratified formation, I, 401.
 Temperature, I, 463.
 Thickness of ice under the *Fram* during drift, I, 459.
 Thirst quenched by sucking ice, II, 151 (Note).
 Water for cooking, better than snow, II, 228 (Note).
 White reflection from, I, 148.
 Winds strongly influencing ice-drift, II, 711.
 Icebergs, II, 344, 350.
 Ice-blasting, I, 343; II, 642, 652, 667, 686.
 Ice-foot, II, 518 (Note).
 Ice-gull, II, 617.
 Ice-mews, I, 468.
 Ice-pressure, I, 271, 272, 277, 279, 292, 304, 307, 308, 313, 352, 369, 381, 397, 398, 408; II, 28, 37, 38, 39, 42, 65, 66, 602, 610, 613, 638, 652, 662, 669, 693.
 Blasting, II, 642, 652.
Fram freed from, II, 700.
 Preparations for abandonment of the *Fram* on occasion of severe ice-pressure, II, 47.
 Removal of high pressure-ridge, II, 605.
 Infusoria found in ice-water, I, 515.
 Inglefield, Sir E., favorable view of proposed expedition, I, 45.
 Instruments for scientific observations—
Fram equipment, I, 72.
 Sledge expedition, II, 124.
 Iövenskiöld, C., contribution to expedition, I, 55.
 Ivory gulls, II, 237, 244, 248, 266, 303, 313, 326, 341, 350, 379, 386, 475.

J

- Jackson, F.—
 Aid given to Nansen in preparation of maps and plans, II, 547.
 Cape Richthofen, most northerly point reached by, II, 504.
 Hut, II, 536.
 Nansen meeting with, II, 522.
 Jackson's map—
 "King Oscar Land," error in position on, II, 379 (Note).
 Used by Nansen in preparing his sketch-map of Franz Josef Land, II, 548.
 Jackson-Harmsworth expedition, I, 12.
 Nansen's meeting with, II, 522.
 Jacobsen, T. C., mate of the *Fram*, I, 78.
 Reindeer stalking, I, 160.
 Sledge building for northward expedition, II, 73.
 Jarlsberg, Baron Harald Wedel, contribution to expedition, I, 55.
Jeannette expedition (1879-81)—
 Drift, I, 12, 13, 16, 17, 540.
Fram's drift compared with, I, 540.
 Ice-water, distilling before drinking, unnecessary trouble, II, 228.
 Scurvy, immunity from, I, 586.
 Johansen, F. H., member of expedition, I, 79.
 Bandaging lessons in preparation for sledge journey, II, 70.
 Bear attack, narrow escape, II, 329.
 Birthday feast, II, 210.
 Chosen as Nansen's companion on sledge journey, II, 2, 7.
 Kayak building, II, 12.
 Meteorological observations, I, 243, 363.
 Journals—
 Difficulty of writing during life in hut, II, 436.
 Duplicate carried by Nansen on sledge expedition, II, 16.
 Juell, A., steward and cook of the *Fram*, I, 78, 79.
 Bet with Peter as to thickness of ice under the *Fram*, I, 459.
 Dog-tailor, II, 16.
 Julianehaab, drift from wreck of the *Jeannette* discovered near, I, 17.

K

- Kamenni Islands, I, 158.
 Kane's expedition, inadequate preparations, I, 353.
 Kara River, I, 149.
