- Mary Elizabeth Island, II, 500 (Note).
- Matches, precautions against fire, I, 536.
- May 17th, celebrations, I, 483; II, 218, 628, 683.
- Meat—  
   Fresh, remarkable preservation, I, 496.  
   Preparations taken on sledge journey, II, 124.
- Meat-chocolate, afternoon refreshment on sledge journey, II, 150.
- Medicine-chest, I, 98.  
   Sledge journey equipment, II, 126.  
   Store in long-boat, contents uninjured, II, 649.
- Medusæ, I, 298.
- Members of expedition (see Crew of the *Fram*).
- Menus, feast-days, I, 256, 348, 349, 360, 388, 483, 486, 552, 565, 566; II, 24, 33, 170, 176, 210, 218, 320, 449.
- Menus, ordinary days, I, 391.
- Mergulus alle, II, 255, 465.
- Meteorological observations—  
   Huts built for, II, 16, 664.  
   Instruments carried by *Fram*, I, 73, 74.  
   Instruments carried on sledge journey, II, 123.  
   Method of conducting, I, 243, 363.
- Microscopical research, Nansen's absorption in, I, 513, 514, 515, 575.
- Midsummer-eve, I, 495, 498; II, 299.
- Mittens used on sledge journey, II, 118.
- Mogstad, Otto Irgens, member of expedition, I, 80.  
   Kayak and sledge-building, II, 12, 65, 73.
- Mohn, Professor—  
   Lecture on drift from the *Jeannette*, I, 18.  
   Meteorological instruments for expedition supervised by, I, 74.  
   Nansen's expedition and theories approved of, I, 40.  
   Nansen's meeting with, on return, II, 583.
- Moltke Moe, farewell telegram, I, 359.
- Moons, remarkable, I, 294, 296, 297, 306, 307, 338; II, 27, 54, 65.
- Mountain poppies, tundra-plains of Asia, I, 122.
- Mud on ice surface, organisms contained in, I, 298, 504.
- Multer, II, 33.
