

- Jussieu, the Brothers, 106.
- Keferstein, C., 197, 201, 222, 244, 408.
- Kennedy, Robert, 322.
- King, Clarence, 461.
- Kirwan, R., 296, 316, 329.
- Knorr, G. W., his plates of fossils, etc., 101.
- Lake District, ancient volcanic rocks of, 266.
- Lake Superior, pre-Cambrian rocks of, 435.
- Lamanon, 343, 371.
- Lamarck, early career of, 345; devotes himself to botany, 347; publishes his *Flore Française*, 347; becomes Professor of Zoology, 348; his contributions to geology, 349; founder of invertebrate Palæontology, 349; publishes his *Hydrogéologie*, 350; contributions to evolution, 350; on origin of mountains and valleys, 351; on action of terrestrial waters, 353; on origin of the ocean-basin, 353; on the use of organic remains in the rocks, 355, 358; on the order and antiquity of Nature, 356; on antiquity of the earth, 356; on interchange of land and sea, 357; on origin of the calcareous material in the earth's crust, 358; on origin of limestone, 359; on the condition and thickness of the earth's crust, 359; on the *Pouvoir de la Vie*, 360; on consolidation of rocks, 361; on granite, 362; fate of his *Hydrogéologie*, 374; his services to palæontology, 401.
- Land, submergence and elevation of, 20, 34, 37; gain of, by river deposits, 28, 29.
- Landslips, Guettard on, 122.
- Lang, K. N., his *Historia Lapidum*, 98.
- Lapworth, Prof. C., 441.
- Laurentian rocks, 436.
- Lava, Hutton on "unerupted," 305.
- Lavoisier, 115, 343.
- Legends, geological origin of some, 6.
- Lehmann, J. G., 180, 195, 233, 336, 401.
- Leibnitz, cosmology of, 81; recognized the co-operation of hypogene and epigene forces in geological history, 82; on earthquakes and volcanoes, 82; on fossils, 83.
- Leonhard, K. C. von, 262.
- Lesley, J. P., 460.
- Lhuyd, Edward, on Fossils, 77, 117.
- Lias, outcrop of, traced by Strange, 337; zonal stratigraphy of, 441.
- Life, speculations on evolution of, 87.
- Linnaeus, 189.
- Lipari Isles, 15, 20.
- Lister, Martin, on fossils, 76, 336; on mineralogical maps, 449.
- Littoral fossils, 344, 355, 358.
- Logan, W. E., 435.
- Lonsdale, W., 431.
- Lucretius, cited, 13; on earthquakes, 16.
- Lyell, C., 159, 311, 313, 403, 411, 414.
