

FIG.	PAGE.
81. Teeth of Argonauta	79
82. Cyclops quadricorne	100
83. Lophinus piscatorius	102
84. A species of fishing-frog from China	103
85. Draco Fimbriatus	119
86. Chameleon	142
87. Anterior and posterior limbs of the Chameleon (<i>Chamæleo Africanus</i>)	142
88. Cteniza fodiens	209
89. Cteniza nidulans	210
90. Nest and tube of Cteniza fodiens. a. Lid or trap-door surmounting the tube or nest	210
91. Aranea notacantha	218
92. Scorpion	219
93. Phalangium rugorum	221
94. Discocephalus Rotator	223
95. Nycteribia Vespertilionis (The Bat-louse)	224
96. Portion of a honey-comb, to show that every cell, as it were, stands upon three	246
97. Myrmica Kirbii	248
98. Myrmica Kirbii (neuter)	248
99. Myrmica Kirbii, attitude when in motion	248
100. Nest of Myrmica Kirbii	249
101. Mormolyce phyllodes	262
102. Malthe vespertilio	284
103. Side view of the Head of Malthe vespertilio	285
104. Lamprey (<i>Petromyzon fluviates</i>). a. The sucking mouth with its armature of teeth	286
105. Raia torpedo	291
106. Gymnotus electricus	293
107. Proteus Anguinus. a. a. The gills	306
108. Tryonix Gangeticus	316
109. Penguin (<i>Aptenodytes</i>)	330
110. Sylvia cisticola	342
111. Nest of Sylvia cisticolo. a. Portion of the nest, showing the stitching of the leaves	343
112. Cachelot Whale (<i>Physeter macrocephalus</i>)	361
113. Whalebone Whale (<i>Balæna mysticetus</i>)	362
114. Monodon monocerus	363
115. Manatus Americanus	364
