

CONTENTS.

LECTURE I. Page 13.

PSALM CXI. 2. *The works of the Lord are great, sought out of all them that have pleasure therein.*

Object, design, and importance of geological science. Requisites and method of the study. Harmony of all science with the announcements of Revelation. Truth. Evidence. The world. The SUPREME BEING. Authority of Scripture.

LECTURE II. Page 41.

DEUTERONOMY XXXIII. 13, 15, 16. *Blessed of the Lord be his land; for the precious things of heaven, for the dew, and for the deep that coucheth beneath,—and for the chief things of the ancient mountains, and for the precious things of the lasting hills, and for the precious things of the earth and the fulness thereof.*

Change in the material universe, constant, but according to law. Description of facts in relation to the crust of the earth. Internal condition. Pyrogenous rocks. Stratified formations. Remains of creatures which once had life.

LECTURE III. Page. 70.

ROMANS XI. 36. *Of HIM, and through HIM, and to HIM, are all things: to whom be glory for ever.*

Recital of opinions which are by many assumed to be asserted or implied in the Scriptures, but which are contrary to geological doctrines. I. The recent creation of the world. II. A previous universal chaos over the earth. III. The creation of the heavenly bodies after that of the earth. IV. The derivation of all vegetables and animals from one centre of creation. V. That the inferior animals were not subject to death till the fall of man.
