

CONTENTS.

CHAPTER I.

PRINCIPAL FEATURES OF PHYSICAL GEOGRAPHY.

	Page
Natural boundaries and divisions of Yorkshire	1
Natural districts classed.....	2
Dependence of natural features on geological structure	5
Main slopes of the surface—physical origin of these	6, 7
Valleys originally shaped by the sea.....	9
Features of individual hills, valleys and cliffs.....	10
Waterfalls, their origin	12
Fissures, Swallow holes, caves.....	13, 14
Geology explains Physical Geography	15

CHAPTER II.

MOUNTAINS OF YORKSHIRE.

Mickle Fell group—peculiar plants	16, 17
Stainmoor—transport of erratics—the ancient Camp of Rey Cross..	18, 19
Hougill Fells—Codley Spout	20
Water Crag—Swaledale Head	20
Shunnor Fell—the Buttertubs—Wild Boar Fell.....	21
Widdale Fell—Dod Fell	22
Fells between Yoredale and Wharfdale.....	23
Fells between Wharfdale and Nidderdale.....	24
Whernside—Great Colm—Yordas Cave.....	24-26
Ingleborough—Yarlsber—ancient camp on the summit.....	26, 27, 28
Ingleborough Caverns	29-35
Geology of Ingleborough	35
Penyghent—Fountain's Fell	36
Ryeloaf—Brown Hill—Barden Fell—Greenhow Hill—Almes Cliff, &c.	37, 38
