

CHAPTER VIII.—THEORY OF DEFINITE, RECIPROCAL, AND  
MULTIPLE PROPORTIONS.

	PAGE
<i>Sect.</i> 1. Prelude to the Atomic Theory, and its Publication by Dalton....	285
<i>Sect.</i> 2. Reception and Confirmation of the Atomic Theory.....	288
<i>Sect.</i> 3. The Theory of Volumes.—Gay-Lussac .....	290

CHAPTER IX.—EPOCH OF DAVY AND FARADAY.

<i>Sect.</i> 1. Promulgation of the Electro-chemical Theory by Davy.....	291
<i>Sect.</i> 2. Establishment of the Electro-chemical Theory by Faraday.....	296
<i>Sect.</i> 3. Consequences of Faraday's Discoveries.....	302
<i>Sect.</i> 4. Reception of the Electro-chemical Theory.....	303

CHAPTER X.—TRANSITION FROM THE CHEMICAL TO THE CLASSIFICATORY SCIENCES.....	305
--------------------------------------------------------------------------------	-----

*THE ANALYTICO-CLASSIFICATORY SCIENCE.*

BOOK XV.

HISTORY OF MINERALOGY.

INTRODUCTION

<i>Sect.</i> 1. Of the Classificatory Sciences .....	318
<i>Sect.</i> 2. Of Mineralogy as the Analytico-classificatory Science.....	314

*CRYSTALLOGRAPHY.*

CHAPTER I.—PRELUDE TO THE EPOCH OF DE LISLE AND HAÜY.....	316
--------------------------------------------------------------	-----

CHAPTER II.—EPOCH OF ROMÉ DE LISLE AND HAÜY.— ESTABLISHMENT OF THE FIXITY OF CRYSTALLINE AN- GLES, AND THE SIMPLICITY OF THE LAWS OF DERIVA- TION.....	320
-----------------------------------------------------------------------------------------------------------------------------------------------------------------	-----

CHAPTER III.—RECEPTION AND CORRECTIONS OF THE HAU- IAN CRYSTALLOGRAPHY.....	324
--------------------------------------------------------------------------------	-----
