

SED

- Sedgwick, Prof., and Murchison, Cambrian and Silurian rocks, 57
 — — Arenig beds, 69
 — — on Devonian rocks, 99
 — — on Magnesian limestone, 140
 — — on William Smith, 281
 Sediments, transported by glaciers, 5
 — — — running water, 6
 — how distributed, 10
 Seine, 533, 535
 Selsey Bill, waste of, 486
 Serpentine, 615
 Seven Springs, Thames, 515, 556
 Severn, 503-510, 542, 554
 Shap granite, boulders, 385
 Shells, &c., how fossilized, 13, 16
 — in glacial beds, 395, 412-418
 Sheppey Isle, denudation of, 485
 Shingle, how formed, 9
 Shrewsbury, Permian strata, 142
 Shrinkage of earth's crust, 45, 46, 49
 Sidlaw Hills, 528
 Silures, 580-582
 Silurian rocks, England and Wales, 302-305
 Siston river, 511
 Skene, Mr., on Celtic populations and names, 580, 581, 583, 584, 586
 — — King Arthur, 587
 Skertchly, Mr., on boulder-clay, 394-396
 — — antiquity of man, 481, 482
 — — flint implements, 544
 Skiddaw slates, 70
 Skye, Miocene volcanic rocks and flora of, 264
 Slate quarries, Wales, 590-592
 Smith, William, on Sands of Inferior Oolite, 174
 — — Fuller's earth, 176
 — — Kelloway rock, 184
 — — Succession of life in time, 281
 Smythe, Admiral, and volcano of Graham Island, 79
 Snowdon, &c., volcanic rocks of, 76
 Snowdon to East of England, structure and physiography, 330, 331

STI

- Snowdon, glaciers of, 407, 408 421-428
 Soils, 563-578
 — boulder-clay and silt, 576-578
 — Charnwood Forest, 568
 — Cretaceous series, 572-576
 — Eocene beds, 576
 — Lias and Oolites, 570-572
 — Lickey Hills, 568
 — loams, 573
 — New Red Series, 569, 570
 — North of England, 564-566
 — North of Scotland, 563
 — Secondary rocks, 569-576
 — Wales, 566-568
 — Wealden, 573
 Solar evaporation, concentration of salts by, 146
 Solent, 516
 — Eocene strata of, 347
 Somme, river, gravels of, 538
 Sorby, Mr., on minerals and rocks, 53, 54
 Sound of Jura, glacier, 398
 South Staffordshire, Old Red Sandstone of, 117
 — — coal-measures of, 124
 — — Permian strata, 142, 143
 South Wales, Lower Silurian rocks of, 72
 — — glaciation of, 402
 — — Old Red Sandstone of, 117
 Southern hemisphere, glacial epoch there, 378
 — Highlands glaciated, 382
 Species, change of, and geological time, 36
 Speeton clay, 213
 Spitzbergen, Miocene flora of, 264
 — — volcanic rocks of, 354
 Stanley, Bishop, on Cefn Cave, 496
 St. Bride's Bay, denudation of, 487
 — Cassian and Hallstatt beds, 159
 — David's, volcanic rocks of, 77
 — Lawrence, area of drainage, 560
 — Paul's and Portland stone, 190, 611
 Steno, on fossils, 278
 Stiper Stones, 72
 — — volcanic rocks near, 77
