

- Till** defined, 20, 277, 282.
Tillotherium, 256.
Time, geological, 288.
Tinoceras, 257.
Torrential action, 21.
Tracks in sandstone, 248, 249.
Translation, earthquake of, 106.
Transportation of Drift, 15.
Trap eruptions in Trias, 250.
Travertin, 35; deposited by geysers, 83.
Trends of mountain axes, 118.
Triassic, lavas, 94; sandstones, 172; mammals, 252.
Trilobites, 191; Cambrian, 234.
Tube of a geyser, 82.
Tufa, 35.
- Uinta Mountains upraised**, 268.
Uintatherium, 257.
Unity of nature, 312; evinced in light, 313; in planetary laws, 313; in world stuff, 314; in unity of development, 315; in relations of man and nature, 316; in mental and moral faculties, 316; in relations of man and God, 317.
Uplifts of strata, 116.
- Vapor** defined, 204.
Vegetation of coal beds, 150, 174; of Cretaceous, 170; of Eozoic, 232.
- Veins of ores**, 128.
Vertebrates, earliest, 286; limbs of, 255.
Vesuvius, 83; eruptions of, 87.
Vibration, earthquakes of, 104.
Vogt, Carl, on Archæopteryx, 261.
Volcanic eruptions of far west, 269.
Volcanoes, 85 *seq.*, 269; and earthquakes, 106, 116.
- Wahsatch**, 266, 267.
Warm springs, 81, 83 *seq.*
Wastage of the land, 53, 54, 271.
Wasted continental surface, 271.
Water-basins in the earth, 31.
Water, first condensation of, 222.
Waverly Sandstone, 242.
Waves of earthquakes, 103.
Wells and springs, 31, 32.
Widder, fossils at, 182.
Will, the only source of energy, 309.
Winchell, N. H., on Falls of St. Anthony, 292.
World, has been built, 12.
World-stuff, 208. See "Cosmic dust."
Wrinkling of strata, 116, 227, 246.
- Yakutsk**, frozen soil at, 99.
Yellowstone Lake, 80.
- Zeuglodon**, 165.
