XV

	Page
v. Nautilus Sypho and Nautilus Zic Zac . . . . .	357
vi. Chambered Shells allied to Nautili, and Ammonites . . . . .	361
vii. Belemnite . . . . .	371
viii. Foraminated Polythalamous Shells. Nummulites. Miliola . . . . .	381
<b>CHAP. XVI. Proofs of Design in the Structure of Fossil Articulated Animals . . . . .</b>	<b>386</b>
§ I. First Class of Articulated Animals . . . . .	386
Fossil Annelidans . . . . .	386
II. Second Class of Articulated Animals . . . . .	387
Fossil Crustaceans . . . . .	387
Trilobites . . . . .	389
III. Third Class of Articulated Animals . . . . .	404
Fossil Arachnidans . . . . .	404
Fossil Spiders . . . . .	405
Fossil Scorpions . . . . .	406
IV. Fourth Class of Articulated Animals . . . . .	409
Fossil Insects . . . . .	409
<b>CHAP. XVII. Proofs of Design in the Structure of Fossil Radiated Animals, or Zoophytes . . . . .</b>	<b>414</b>
§ I. Fossil Echinoderms . . . . .	415
Echinidans and Stelleridans . . . . .	415
Crinoideans . . . . .	416
Encrinites Moniliformis . . . . .	421
Pentacrinites . . . . .	432
II. Fossil Remains of Polypes . . . . .	442
<b>CHAP. XVIII. Proofs of Design in the Structure of Fossil Vegetables . . . . .</b>	<b>450</b>
§ I. General History of Fossil Vegetables . . . . .	450
II. Vegetables in Strata of the Transition Series . . . . .	459
Equisetaceæ . . . . .	459
Ferns . . . . .	461
Lepidodendron . . . . .	466
Sigillaria . . . . .	469
Favularia, Megaphyton, Bothrodendron, Ulodendron . . . . .	474
